

Condensed Unaudited  
Group Interim  
Financial Statements

---

**June 2021**

**Directors' Report**  
**For the period ended 30 June 2021**

The Directors present their second quarter report on the affairs of Sterling Bank Plc ("the Bank"), together with the unaudited Group Financial Statements for the period ended 30 June, 2021

**Principal activity and business review**

Sterling Bank Plc is engaged in commercial banking services with emphasis on retail, commercial and corporate banking, trade services, investment banking activities and non-interest banking. It also provides wholesale banking services including the granting of loans and advances; letter of credit transactions, money market operations, electronic banking products and other banking activities.

**Legal form**

Sterling Bank Plc, (formerly known as NAL Bank Plc) was the pioneer merchant bank in Nigeria, established on 25 November, 1960 as a private liability company and was converted to a public limited company in April, 1992.

Following the consolidation reforms introduced and driven by the Central Bank of Nigeria in 2004, the Bank emerged from the consolidation of NAL Bank Plc, Indo-Nigerian Bank Limited, Magnum Trust Bank Plc, NBM Bank Limited and Trust Bank of Africa Limited. NAL Bank Plc as the surviving bank adopted a new name for the enlarged entity, 'Sterling Bank Plc'.

The enlarged Bank commenced post merger business operations on January 3, 2006 and the Bank's shares are currently quoted on the Nigerian Stock Exchange (NSE).

In October, 2011, the Bank had a business combination with Equitorial Trust Bank Limited to re-position itself to better compete in the market space.

In compliance with the CBN guidelines on the review of the Universal Banking model, the Bank divested from its four subsidiaries and one associate company on 30 December, 2011.

Sterling Bank Plc registered Sterling Investment Management Plc (the SPV) with the Corporate Affairs Commission as a public liability company limited by shares with authorised capital of N2,000,000 at N1.00 per share. The main objective of setting up the SPV is to raise or borrow money by the issue of bonds or other debt instruments. The SPV is a subsidiary and is consolidated in the financial statements of the Bank. The Bank and its subsidiary is collectively referred to as "the Group".

The Bank has 156 branches including cash centres as at 30 June 2021.

**Operating results**

Highlights of the Group and Bank's operating results for the period are as follows:

| <i>In millions of Naira</i>         | Group     |               | Bank      |               |

**Acquisition of own shares**

The Bank did not acquire any of its shares during the period ended 30 June, 2021 (31 December, 2020: Nil).

**Property, plant and equipment**

Information relating to changes in property, plant and equipment is given in Note 25 to the consolidated and separate financial statements.

**Employment and employees**

**i Employment of disabled persons**

The Bank has a non-discriminatory policy on recruitment. Applications would always be welcomed from suitably qualified disabled persons and are reviewed strictly on qualification. The Bank's policy is that the highest qualified and most experienced persons are recruited for appropriate job levels irrespective of an applicant's state of origin, ethnicity, religion or physical condition.

**ii Health, safety and welfare of employees**

Health and safety regulations are in force within the Bank's premises and employees are aware of existing regulations. The Bank provides subsidies to all levels of employees for medical expenses, transportation, housing, lunch etc.

**iii Employee training and Development**

The Bank is committed to keeping employees fully informed as much as possible regarding the Bank's performance and progress and seeking their opinion where practicable on matters, which particularly affect them as employees. Training is carried out at various levels through both in-house and external courses. Incentive schemes designed to encourage the involvement of employees in the Bank's performance are implemented whenever appropriate.

**iv Events after reporting date**

There were no events after the reporting date which could have had a material effect on the state of affairs of the Bank as at 30 June 2021 or the profit for the period ended on that date which have not been adequately provided for or disclosed.

**BY ORDER OF THE BOARD:**

- Review and submit to the full Board, recommendations concerning Non-Executive Directors remuneration.
- Review and recommend for Board approval stock-based compensation, share option, incentive bonus, severance benefits and perquisites for Executive Directors and employees.
- Ensure that the level of remuneration is sufficient to attract, retain and motivate Executive Directors and all employees of the Bank while ensuring that the Bank is not paying excessive remuneration.

**Board Governance and Remuneration Committee - Continued**

- Recommend to the Board compensation payable to Executive Directors and Senior Management employees for any loss of office or termination of appointment.
- Develop, review and recommend the remuneration policy to the Board for approval.
- The Committee may engage a remuneration consultant at the expense of the Bank for the purpose of carrying out its responsibilities. Where such a consultant is engaged by the Committee, the consultant must be independent.
- To perform any other duties assigned by the Board from time to time.

The members are as follows:

|                             |          |
|-----------------------------|----------|
| 1 Mrs. Folasade Kilaso      | Chairman |
| 2 Dr. (Mrs.) Omolara Akanji | Member   |
| 3 Mr. Olaitan Kajero        | Member   |
| 4 Mrs. Tairat Tijani        | Member   |
| 5 Mr. Michael Ajukwu        | Member   |

**Statutory Audit Committee**

The Committee meets every quarter, but could also meet at any other time, as the need arise.

**Terms of reference**

- To make recommendations to the Board to be put to the Shareholders for approval at the AGM regarding the appointment, removal and remuneration of the external auditors of the Bank;
- To authorise the internal auditor to carry out investigations into any activities of the Bank which may be of interest or concern to the Committee;
- To review and approve the annual audit plan and ensure that it is consistent with the scope of audit engagement, having regard to the seniority, expertise and experience of the audit team;
- To review representation letter(s) requested by the external auditors before they are signed by Management;
- To review the Management Letter and Management's Response to the auditor's findings and recommendations;
- To assist in the oversight of the integrity of the Bank's financial statements, compliance with legal and other regulatory requirements, assessment of qualifications and independence of external auditor, and performance of the Bank's internal audit function as well as that of external auditors;
- To establish an internal audit function and ensure there are other means of obtaining sufficient assurance of regular review or appraisal of the system of internal controls in the Bank;
- To ensure the development of a comprehensive internal control framework for the Bank, obtain assurance and report annually in the financial report, on the operating effectiveness of the Bank's internal control framework;
- To review such other matters in connection with overseeing the financial reporting process and the maintenance of internal controls as the Committee shall deem appropriate;
- To oversee management's process for the identification of significant fraud risks across the Bank and ensure that adequate prevention, detection and reporting mechanisms are in place;
- At least on an annual basis, obtain and review a report by the internal auditor describing the strength and quality of internal controls including any issues or recommendations for improvement, raised by the most recent internal control review of the Bank;
- Discuss the annual audited financial statements and half yearly unaudited statements with Management and external auditors;
- Discuss policies and strategies with respect to risk assessment and management;
- Meet separately and periodically with Management, internal auditors and external auditors;
- To review and ensure that adequate whistle-blowing procedures are in place;
- To review, with the external auditors, any audit scope limitations or problems encountered and management's responses to same;
- To review the independence of the external auditors and ensure that where non-audit services are provided by the external auditors, there is no conflict of interest;

#### **Statutory Audit Committee - Continued**

- To consider any related party transactions that may arise within the Bank or Group;
- Invoke its authority to investigate any matter within its terms of reference for which purpose the Bank must make available the resources to the internal auditors with which to carry out this function, including access to external advice where necessary;
- Prepare the Committee's report for inclusion in the Bank's Annual Report; and
- Report to the Board regularly at such times as the Committee shall determine necessary.

The members are as follows:

|                           |          |
|---------------------------|----------|
| 1 Alhaji Mustapha Jinadu  | Chairman |
| 2 Mr. Olaitan Kajero      | Member   |
| 3 Mr. Idongesit E. Udoh   | Member   |
| 4 Ms. Christie O. Vincent | Member   |
| 5 Mrs. Folasade Kilaso    | Member   |

#### **Management Committees**

##### **1 Executive Committee (EXCO)**

The Committee provides leadership to the management team and ensures the implementation of strategies approved by the Board. It deliberates and takes decisions on the effective and efficient management of the Bank.

##### **2 Assets and Liability Committee (ALCO)**

The Committee ensures adequate liquidity and the management of interest rate risk within acceptable parameters. It also reviews the economic outlook and its impact on the Bank's strategies.

##### **3 Management Credit Committee (MCC)**

The Committee approves new credit products and initiatives, minimum/prime lending rate and reviews the Credit Policy Manual. It approves exposures up to its maximum limit and the risk asset acceptance criteria.

##### **4 Management Performance Review Committee (MPR)**

The Committee reviews the Bank's monthly performance on set targets and monitors budget achievement. It also assesses the efficiency of resource deployment in the Bank and re-appraises cost management initiatives.

##### **5 Criticised Assets Committee (CAC)**

The Committee reviews the Bank's credit portfolio and collateral documentation. It reviews the non-performing loan stock and recovery strategies for delinquent loans.

##### **6 Technology Steering Committee (TSC)**

The Committee establishes the overall technology priorities by identifying projects that support the Bank's business plan. It provides guidance in effectively utilizing technology resources to meet business and operational needs of the Bank.

##### **7 Management Risk Committee (MRC)**

The Committee is responsible for planning, management and control of the Bank's overall risks. It includes setting the Bank's risk philosophy, risk appetite, risk limits and risk policies.

#### **Succession Planning**

Sterling Bank Plc has a Succession Planning Policy which is aligned to the Bank's overall organisational development strategy. In line with the policy, Human Capital Management Group is saddled with the responsibility to coordinate the implementation of the Bank's Succession Policy.

Successors are nominated based on experience, skills and competencies through an automated process by current role holders in conjunction with the Human Capital Management Group. Development initiatives have also been put in place to accelerate successors' readiness.

#### **Code of Ethics**

Sterling Bank has a Code of Ethics that specifies acceptable behavior of its staff. It is a requirement that all staff should sign a confirmation that they have read and understood the document upon employment.

The Bank also has a Sanctions Manual which provides sample offences/violation and prescribes measures to be adopted in various cases. The Chief Human Resource Officer is responsible for the implementation and compliance of the "Code of Ethics".

**Whistle Blowing Process**

The Bank is committed to the highest standards of openness, probity and accountability; hence the need for an effective and efficient whistle blowing process as a key element of good corporate governance and risk management.

Whistle blowing process is a mechanism by which suspected breaches of the Bank's internal policies, processes, procedures and unethical activities by any stakeholder (staff, customers, suppliers and applicants) are reported for necessary actions.

It ensures a high degree of integrity and transparency in order to achieve efficiency and effectiveness in our operations.

The reputation of the Bank is of utmost importance and every staff of the bank has a responsibility to protect the bank from any persons or act that might jeopardize its reputation. Staff are encouraged to speak up when faced with information that would help protect the Bank's reputation.

An essential attribute of the process is the guarantee of confidentiality and protection of the whistle blower's identity and rights. It should be noted that the ultimate aim of this policy is to ensure efficient service to the customer, good corporate image and business continuity in an atmosphere compliant with best industry practice.

The Bank has a Whistle Blowing channel via the Bank's website, dedicated telephone hotlines and e-mail address in compliance with Section 6.1.12 of the Central Bank of Nigeria (CBN) Code of Corporate Governance for Banks in Nigeria Post Consolidation.

The Bank's Chief Compliance Officer is responsible for monitoring and reporting on whistle blowing.

**Compliance Statement on Securities Trading by Interested Parties**

The Bank has put in place a Policy on Trading on the Bank's Securities by Directors and other key personnel of the Bank.

During the period under review, the Directors and other key personnel of the Bank complied with the terms of the Policy and the provisions of Section 14 of the Amendment to the Listing Rules of The Nigerian Stock Exchange.

**Complaint Management Policy**

The Bank has put in place a Complaint Management Policy guiding the resolution of disputes with stakeholders on issues relating to the Investment and Securities Act.

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RELATION TO THE FINANCIAL STATEMENTS FOR THE QUARTER ENDED 30 JUNE 2021**

In accordance with the provisions of Sections 377 and 378 of the Companies and Allied Matters Act 2020, and Sections 23 and 27 of the Banks and Other Financial Institution Act 2020, the Directors are responsible for the preparation of the consolidated financial statements and the separate financial statements which present fairly, in all material respects, the financial position of the Group and the Bank, and of the financial performance for the period.

The responsibilities include ensuring that:

- (a) appropriate internal controls are established both to safeguard the assets of the Group and to prevent and detect fraud and other irregularities;
- (b) the Group keeps accounting records which disclose with reasonable accuracy the financial position and performance of the Group and which ensure that the financial statements comply with the requirements of the Companies and Allied Matters Act 2020, Banks and Other Financial Institutions Act 2020, Revised Prudential Guidelines, International Financial Reporting Standards and relevant Circulars issued by the Central Bank of Nigeria;
- (c) the Group has used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates.

The Directors accept responsibility for the consolidated and separate financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates in conformity with International Financial Reporting Standards, the requirements of the Companies and Allied Matters Act 2020, Banks and Other Financial Institutions Act 2020, Revised Prudential Guidelines, and relevant Circulars issued by the Central Bank of Nigeria.

The Directors are of the opinion that the consolidated and separate financial statements present fairly, in all material respect, the financial position and financial performance of the Group and Bank as of and for the six months ended 30 June 2021.

The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of the consolidated and separate financial statements, as well as adequate systems of financial control.

Nothing has come to the attention of the Directors to indicate that the Group and the Bank will not remain as a going concern for at least twelve months from the date of this statement.

**Notes to the Consolidated and Separate Financial Statements**  
**For the period ended 30 June 2021**

**1 Corporate information**

Sterling Bank Plc, (formerly known as NAL Bank Plc) domiciled at 20 Marina Lagos was the pioneer merchant bank in Nigeria, established on 25 November 1960 as a private limited liability company, and was converted to a public limited liability company in April 1992.

Sterling Bank Plc (the "Bank") together with its subsidiary (collectively the "Group") is engaged in commercial banking with emphasis on retail and consumer banking, trade services, corporate, investment and non-interest banking activities. It also provides wholesale banking services including the granting of loans and advances, letter of credit transactions, money market operations, electronic and mobile banking products and other banking activities.

**2 Accounting policies**

**2.1 (a) Basis of preparation and statement of compliance**

The condensed consolidated and separate financial statements of the Bank and its subsidiary have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in the manner required by the Companies and Allied Matters Act 2020, The Financial Reporting Council of Nigeria Act No 6, 2011, the Banks and Other Financial Institutions Act 2020, and relevant Central Bank of Nigeria circulars.

The condensed consolidated and separate financial statements have been prepared on a historical cost basis, except for financial assets measured at fair value.

The condensed consolidated and separate financial statements are presented in Nigerian Naira and all values are rounded to the nearest million (N'million) except when otherwise indicated.

**(b) Functional and Presentation currency**

The consolidated and separate financial statements are presented in Nigerian Naira and all values are rounded to the nearest million (N'million) except when otherwise indicated.

**(c) Basis of Consolidation**

The consolidated financial statements comprise the financial statements of the Bank and its subsidiary as at 30 June 2021. Sterling Bank consolidates a subsidiary when it controls the entity. Control is achieved when the Bank is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Generally, there is a presumption that a majority of voting rights results in control. However, under individual circumstances, the Bank may still exercise control with less than 50% shareholding or may not be able to exercise control even with ownership over 50% of an entity's shares. When assessing whether it has power over an investee and therefore controls the variability of its returns, the Bank considers all relevant facts and circumstances, including:

- The purpose and design of the investee
- The relevant activities and how decisions about those activities are made and whether the Bank can direct those activities
- Contractual arrangements such as call rights, put rights and liquidation rights
- Whether the Bank is exposed, or has rights, to variable returns from its involvement with the investee, and has the power to affect the variability of such returns

Profit or loss and each component of OCI are attributed to equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

**(d) Seasonality of operations**

The impact of seasonality or cyclicity on operation is not regarded as significant to the condensed interim financial statement. The operation of the Group are expected to be even within the financial year.

**(e) Issuance, repurchase and repayment of debts and equity securities**

During the period under review, there was no issuance/repayment of commercial paper that resulted in an external inflow/outflow into the Bank.

**(f) Significant events after the end of the reporting period**

There were no significant events that occurred after 30 June 2021 that would necessitate a disclosure and/or adjustment to the interim results presented herein.

**(g) Dividends**

The Directors did not recommend the payment of any dividend for the Bank's interim results for the period ended 30 June 2021.

**(h) Changes to accounting policy**

The accounting policies adopted are consistent with those of the previous financial period.

**2.2 Summary of significant accounting policies**

The accounting policies applied by the Bank in these condensed interim financial statements are the same as those applied by the Bank in its consolidated financial statements as at 31 December 2020 (unless otherwise stated). Below are the significant accounting policies.

**(a) Right-of-use assets**

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are presented in Note 23 and are subject to impairment in line with the Group's policy as described in Impairment of non-financial assets.

**(b) Lease liabilities**

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising thereof is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

**(c) Short-term leases and leases of low-value assets**

The Bank applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value (mainly offsite ATM space) assets recognition exemption to leases (i.e., below N2million). Lease payments on short term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

**(d) Financial instruments**

The Group applied the classification and measurement requirements for financial instruments under IFRS 9 for the period ended 30 June 2021.

**- Recognition and initial measurement**

Regular purchases and sales of financial assets and liabilities are recognised on the trade date. A financial asset or financial liability is measured initially at fair value plus or minus, for an item not at fair value through profit or loss, direct and incremental transaction costs that are directly attributable to its acquisition or issue. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss at initial recognition. Financial assets that are transferred to third parties but do not qualify for derecognition are presented in the statement of financial position as "pledged asset" if the transferee has the right to sell or re-pledge them.

**- Classification of financial instruments**

The Group classified its financial assets under IFRS 9, into the following measurement categories:

- Those to be measured at fair value through other comprehensive income (FVOCI) (either with or without recycling)
- Those to be measured at fair value through profit or loss (FVTPL); and
- Those to be measured at amortised cost.

The classification depends on the Group's business model for managing financial assets and the contractual cashflow characteristics of the financial asset (i.e. solely payments of principal and interest- SPPI test). Directors determine the classification of the financial instruments at initial recognition.

The Group classifies its financial liabilities as liabilities at fair value through profit or loss and liabilities at amortised cost.

**- Subsequent measurements**

**Debt instruments**

The subsequent measurement of financial assets depend on its initial classification:

**Amortised cost:** A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is determined using the effective interest method and reported in profit or loss as 'Interest income'.

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

**Fair value through other comprehensive income (FVOCI):** Investment in debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The debt instrument is subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income (OCI) and accumulated in a separate component of equity. Impairment gains or losses, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal or derecognition, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other operating income. Interest income from these financial assets is determined using the effective interest method and recognised in profit or loss as 'Interest income'.

The measurement of credit impairment is based on the three-stage expected credit loss model as applied to financial assets at amortised cost.

**Fair value through profit or loss (FVTPL):** Financial assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. The gain or loss arising from changes in fair value of a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is included directly in the profit or loss and reported as 'Net trading income in the period in which it arises. Interest income from these financial assets is recognised in profit or loss as 'Interest income'.

### Equity instruments

The Group subsequently measures all equity investments at fair value. For equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognised in profit or loss as other operating income when the Group's right to receive payments is established unless the dividend clearly represents a recovery of part of the cost of the investment. All equity financial assets are classified as measured at FVOCI. Where the Group has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

#### - Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- 1) The stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- 2) How the performance of the portfolio is evaluated and reported to the Group's management;
- 3) The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- 4) How managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- 5) The frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

#### Assessment of whether contractual cash flows are solely payments of principal and interest on principal

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- Features that modify consideration of the time value of money – e.g. periodical reset of interest rates.

The Group holds a portfolio of long-term fixed rate loans for which the Group has the option to revise the interest rate at future dates. These reset rights are limited to the market rate at the time of revision. The right to reset the rates of the loans based on the revision in market rates are part of the contractually agreed terms at inception of the loan agreement, therefore the borrowers are obligated to comply with the reset rates without any option of repayment of the loans at par at any reset date. The Group has determined that the contractual cash flows of these loans are solely payments of principal and interest because the option varies with the interest rate in a way that is considered a consideration for the time value of money, credit risk, other basic lending risks and costs associated with the principal amount outstanding. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### **- Reclassifications**

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets that are debt instruments. A change in the objective of the Group's business occurs only when the Group either begins or ceases to perform an activity that is significant to its operations (e.g., via acquisition or disposal of a business line).

The following are not considered to be changes in the business model:

- A change in intention related to particular financial assets (even in circumstances of significant changes in market conditions)
- A temporary disappearance of a particular market for financial assets
- A transfer of financial assets between parts of the entity with different business models

When reclassification occurs, the Group reclassifies all affected financial assets in accordance with the new business model. Reclassification is applied prospectively from the 'reclassification date'. Reclassification date is 'the first day of the first reporting period following the change in business model. Gains, losses or interest previously recognised are not restated when reclassification occurs.

The Group may only sell insignificant portion of debt instruments measured at amortised cost frequently without triggering a change in business model. If the Group sells significant portions, this will not be more than twice a year subject to cases of unlikely to reoccur events such as:

- Run on the Bank/stressed liquidity scenarios
- Credit risk event i.e. perceived issuer default
- In the event of merger and takeover, the Bank may sell portion of the portfolio if the security holdings violates set limits
- Other one-off events

Significance is defined to mean 5% of the portfolio value and subject to the policy on frequency above.

The Group may sell debt instruments measured at amortised cost without triggering a change in business model if the sale is due to deterioration in the credit quality of the financial assets or close to maturity. A financial asset is said to be close to maturity if the outstanding tenor of the financial asset from the time of issue is 25% or less of the original tenor.

Sales close to maturity are acceptable if the proceeds from the sales approximate the collection of the remaining contractual cash flows. At the point of sale an assessment will be conducted to determine that the cash flows expected from the financial asset does not exceed the cash flows from the sales by ten (10) per cent.

#### **- Modifications of financial assets and financial liabilities**

##### **Financial assets**

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value. Any difference between the amortised cost and the present value of the estimated future cash flows of the modified asset or consideration received on derecognition is recorded in the profit or loss statement.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss as part of interest income for the year.

##### **Financial liabilities**

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. This occurs when the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 percent different from the discounted present value of the remaining cash flows of the original financial liability. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment (i.e. the modified liability is not substantially different), any costs or fees incurred are adjusted to the carrying amount of the liability and are amortised over the remaining term of the modified liability.

**- Impairment of financial assets**

In line with IFRS 9, the Group assesses its financial instruments for impairment using Expected Credit Loss (ECL) approach.

The Group applies a three-stage approach to measuring expected credit losses (ECL) on debt instruments accounted for at amortised cost, FVOCI, loan commitment and financial guarantee contracts. Assets migrate through the following three stages based on the change in credit quality since initial recognition:

i) Stage 1: 12-months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised. Interest revenue is calculated by applying the effective interest rate to the gross carrying amount.

ii) Stage 2: Lifetime ECL - not credit-impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but are not credit-impaired, a lifetime ECL is recognised. Interest revenue is calculated by applying the effective interest rate to the gross carrying amount.

iii) Stage 3: Lifetime ECL - credit-impaired

Financial assets are assessed as credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. As this uses the same criteria as under IAS 39, the Group's methodology for specific provisions remains unchanged. For financial assets that have become credit-impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost rather than the gross carrying amount.

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition.

In determining whether credit risk has increased significantly since initial recognition, the Group uses its internal credit risk grading system, external risk ratings and forecast information to assess deterioration in credit quality of a financial asset.

The Group assesses whether the credit risk on a financial asset has increased significantly on an individual or collective basis. For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of shared credit risk characteristics, taking into account instrument type, credit risk ratings, date of initial recognition, remaining term to maturity, industry, geographical location of the borrower and other relevant factors.

The amount of ECL is measured as the probability-weighted present value of all cash shortfalls over the expected life of the financial asset discounted at its original effective interest rate. The cash shortfall is the difference between all contractual cash flows that are due to the Group and all the cash flows that the Group expects to receive. The amount of the loss is recognised using an allowance for credit losses account.

The Group considers its historical loss experience and adjusts this for current observable data. In addition, the Group uses reasonable and supportable forecasts of future economic conditions including experienced judgment to estimate the amount of an expected impairment loss. IFRS 9 introduces the use of macroeconomic factors which include, but is not limited to, unemployment, interest rates, gross domestic product, inflation and commercial property prices, and requires an evaluation of both the current and forecast direction of the economic cycle. Incorporating forward looking information increases the level of judgement as to how changes in these macroeconomic factors will affect ECL. The methodology and assumptions including any forecasts of future economic conditions are reviewed regularly.

If, in a subsequent period, credit quality improves and reverses any previously assessed significant increase in credit risk since origination, depending on the stage of the life time 2 or stage 3 of the ECL bucket, the Group would continue to monitor such financial assets for a probationary period of 90 days to confirm if the risk of default has decreased sufficiently before upgrading such exposure from life time ECL (Stage 2) to 12- months ECL (Stage 1). In addition to 90 days probationary period above, the Group also observes a further probationary period of 90 days to upgrade from Stage 3 to 2. This means a probationary period of 180 days will be observed before upgrading financial assets from lifetime ECL (Stage 3) to 12 months ECL (Stage 1).

In the case of the new asset category for debt instruments measured at FVOCI, the measurement of ECL is based on the three-stage approach as applied to financial assets at amortised cost. The Group recognises the impairment charge in profit or loss, with the corresponding amount recognised in other comprehensive income, with no reduction in the carrying amount in the statement of financial position.

**- Impairment of non-financial assets**

In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

**(e) Investment properties**

Investment properties are measured initially at cost, including transaction costs. Subsequently, investment properties are carried at historical cost less accumulated depreciation and impairment. The fair value and valuation inputs of the investment property are also disclosed in note 24 in accordance with IAS 40.

The investment properties consist of buildings which are depreciated on a straight-line basis over their useful life of 50 years.

Investment properties are derecognized either when they have been disposed off (i.e. at the date the recipient obtains control) or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the carrying amount at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

**(f) Interest Income and Expense**

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- The gross carrying amount of the financial asset; or
- The amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than credit-impaired assets, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses. For credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses.

The calculation of the effective interest rate includes transaction costs and fees paid or received that are integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

**Amortised cost and gross carrying amount**

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any expected credit loss allowance

**Calculation of interest income and expenses**

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the net carrying amount of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

For financial assets that are credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

### **Presentation**

Interest income and expense presented in the profit or loss includes:

- interest on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis;
- interest on debt instruments measured at FVOCI calculated on an effective interest basis;

Interest income and expense on all trading assets and liabilities are considered to be incidental to the Group's trading operations and are presented together with all other changes in the fair value of trading assets and liabilities in Net trading income on financial instruments classified as held for trading.

Interest income and expense on other financial assets and financial liabilities at FVTPL are presented in interest income or interest expense.

### **(g) Non-interest income and non -interest expense**

#### **Sharia income**

Included in interest income and expense are sharia income and expense. The Group's income as a fund manager (mudharib) consists of income and expense from Mudaraba and Hajj transactions, income from profit sharing of Sukuk and Mudaraba financing and other operating income.

Mudaraba income by deferred payment or by installment is recognised during the period of the contract based on effective method (annuity).

Profit sharing income from Mudaraba is recognised in the period when the rights arise in accordance with agreed sharing ratio, and the recognition based on projection of income is not allowed.

### **(h) Fees and commission income and expense**

Unless included in the effective interest calculation, fees and commissions are recognised on an accrual basis as the service is provided. Fees and commissions not integral to effective interest arising from negotiating, or participating in the negotiation of, a transaction from a third party, such as the acquisition of loans, shares or other securities or the purchase or sale of businesses, are recognised on completion of the underlying transaction. Portfolio and other management advisory and service fees are recognised based on the applicable service contracts.

The same principle is applied to the recognition of income from wealth management, financial planning and custodial services that are continuously provided over an extended period of time.

### **(i) Net trading income**

Net trading income comprises gains less losses related to trading assets and liabilities, and includes all realised and unrealised fair value changes, dividends and foreign exchange differences.

### **(j) Dividend income**

Dividend income is recognised when the right to receive income is established. Dividends on trading equities are reflected as a component of net trading income. Dividend income on equity instruments.

### **(k) Cash and cash equivalents**

Cash and cash equivalents include notes and coins in hand, unrestricted balances held with central banks, operating accounts with other banks, amount due from other banks and highly liquid financial assets with original maturities of three months or less from the acquisition date, which are subject to insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

### **(l) Property, plant and equipment Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of equipment.

When parts of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the item of property, plant and equipment, and is recognised in other income/other expenses in profit or loss.

#### **Subsequent costs**

The cost of replacing a component of an item of property or equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

#### **Depreciation**

Depreciation is recognised in profit or loss on a straight-line basis to write down the cost of each asset, to their residual values over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets under finance lease are depreciated over the shorter of the lease term and their useful lives.

Depreciation begins when an asset is available for use and ceases at the earlier of the date that the asset is derecognised or classified as held for sale in accordance with IFRS 5 -Noncurrent Assets Held for Sale and Discontinued Operations. A non-current asset or disposal group is not depreciated while it is classified as held for sale.

The estimated useful lives for property, plant and equipment are as follows:

|                                 |          |
|---------------------------------|----------|
| Leasehold buildings             | 50 years |
| Computer equipment              | 5 years  |
| Furniture, fittings & equipment | 5 years  |
| Motor vehicles                  | 4 years  |
| Leasehold improvements          | 10 years |

Capital work in progress consists of items of property, plant and equipment that are not yet available for use. Capital work in progress is not depreciated, it is transferred to the relevant asset category upon completion.

Depreciation methods, useful lives and residual values are reassessed at each reporting date and adjusted if applicable.

#### **De-recognition**

An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period the asset is derecognised.

#### **(m) Non-current assets held for sale**

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition, management has committed to the sale, and the sale is expected to have been completed within one year from the date of classification. The group classifies repossessed assets as non-current assets held for sale as it intends to recover these assets primarily through sales transactions.

A non-current asset ceases to be classified as a held for sale if the criteria mentioned above are no longer met. A non-current asset that ceases to be classified as held for sale is measured at the lower of:

- (i) its carrying amount before the asset (or disposal group) was classified as held for sale or for distribution, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset (or disposal group) not been so classified; and
- (ii) its recoverable amount at the date of the subsequent decision not to sell or distribute.

#### **2.3 Going Concern**

The Group's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business from issuance date of this report. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated and separate financial statements continue to be prepared on the going concern basis.

## 2.4 New standards and interpretation issued but not yet effective

New standards have been issued but are not yet effective for the period ended 30 June 2021; thus, it has not been applied in preparing these financial statements. The Group intends to adopt the standards below when they become effective:

### **Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture**

In December 2015, the IASB decided to defer the effective date of the amendments until such time as it has finalised any amendments that result from its research project on the equity method. Early application of the amendments is still permitted.

The amendments address the conflict between IFRS 10 Consolidated Financial Statements and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognised when a transfer to an associate or joint venture involves a business as defined in IFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture.

### **Amendments to IAS 1 - Classification of Liabilities as Current or Non-current**

In January 2020, the Board issued amendments to paragraphs 69 to 76 of IAS 1 on classification of Liabilities as Current or Non-current. It provides a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the balance sheet date.

The amendment only affect the presentation of liabilities in the statement of financial position and not the amount or timing of recognition of any asset, liability income or expenses, or the information that entities disclose about those items. The amendment clarifies that:

- classification of liabilities as current or non-current should be based on rights that are in existence at the end of the balance sheet date,
- classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and are to be applied retrospectively. Earlier application is permitted.

The Group does not anticipate early adoption of the standard and the amendment does not have any material impact on the Group.

### **Amendments to IFRS 3 - Reference to the Conceptual Framework**

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to a previous version of the IASB's Conceptual Framework (the 1989 Framework) with reference to the current version issued in March 2018 (the Conceptual Framework) without significantly changing its requirements.

The amendments add an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date.

At the same time, the amendments add a new paragraph to IFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

These amendments will currently have no impact on the Group's consolidated financial statements, and it is effective annual reporting periods beginning on or after 1 January 2022.

### **Amendments to IAS 16 - Property, Plant and Equipment: Proceeds before Intended Use**

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in the profit or loss.

The amendment is not expected to have significant impact on the consolidated financial statements of the Group, and it is effective annual reporting periods beginning on or after 1 January 2022.

### **Amendments to IAS 37 - Onerous Contracts – Costs of Fulfilling a Contract**

In May 2020, the IASB issued amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

The amendments apply a 'directly related cost approach'. The costs that relate directly to a contract to provide goods or services include both incremental costs (e.g., the costs of direct labour and materials) and an allocation of costs directly related to contract activities (e.g. depreciation of equipment used to fulfil the contract as well as costs of contract management and supervision). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

These amendments will currently have no impact on the consolidated financial statements of the Group, and it is effective annual reporting periods beginning on or after 1 January 2022.

## **2.5 Segment Information**

Segment information is presented in respect of the Group's strategic business units which represents the segment reporting format and is based on the Group's management and reporting structure.

**a.** All non-current assets are located in the country of domicile and revenues earned are within same country.

**b.** Reportable segment

The Group has six reportable segments; Corporate Banking, Retail Banking, Commercial Banking, Institutional Banking, Non-interest Banking (NIB) and Sterling SPV which are the Bank's strategic business units. The strategic business units offer different products and services, and are managed separately based on the Group's management and internal reporting structure. For each of the strategic business units, the Executive Management Committee reviews internal management reports on a monthly basis.

The following summary describes the operations in each of the Group's reportable segments:

- Corporate banking provides banking solutions to multinational companies and other financial institutions.
- Institutional banking provides banking solutions to various levels of government, their parastatals, agencies and contractors.
- Retail and Commercial banking provides banking solutions to individuals, small businesses, partnerships and commercial entities among others.
- Non-Interest banking provides solutions that are consistent with Islamic laws and guided by Islamic economics.
- Sterling SPV business objective is to raise or borrow money by the issue of bonds or other debt instruments.

All transactions among business segments are conducted on an arm's length basis, internal charges and transfer pricing adjustments are reflected in the performance of each business.

The Executive Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profits or losses and is measured consistently with operating profits or losses in the financial statements.

No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Group's total revenue in the period (H1-2020: none).

**AMCON surcharge**

(i) This represents the Bank's contribution to a fund established by Asset Management Corporation of Nigeria (AMCON) for the period ended 30 June 2021. Effective 1 January 2018, the Bank is required to contribute an equivalent of 0.5% of its total assets and contingent assets as at the preceding year end to AMCON's sinking fund in line with existing guidelines. It is non-refundable and does not represent any ownership interest.

(ii) This represents accrual for Banking Resolution Fund Levy in accordance with provisions of sections 74 and 77 of the Banks and Other Financial Institutions Act 2020. At commencement date, the Bank is required to contribute an equivalent of 10 basis points of its total assets as at the date of its audited financial statements for the immediately preceding financial year.

- (i) This represents Naira equivalent of \$15.5 million from Master Card Foundation (MCF). It is a blended lending programme (MCF 65%, Sterling 35%) to MSMEs to help them withstand and respond to short term impacts of the COVID-19 Pandemic, while strengthening resilience in the Agricultural sector. The agreed period for the scheme is 24 months in the first instance but with renewal option/fund utilization for charitable projects by MCF. The facility attracts a margin of 9%.
- (ii) This represents Naira equivalent of \$3.75 million amortising Murabaha financing facilities granted by Islamic Corporation for the development of the private sector expiring in March 2021. The facility which attracted a margin of 6.25% was fully repaid in March 2021.
- (iii) This represents Naira equivalent of \$25 million amortising Murabaha financing facilities granted in June 2021 by Islamic Corporation for the development of the private sector expiring in June 2026. The facility is at a margin of 6.21%.
- (iv) This represents the outstanding balance on the \$15 million credit facility granted to the Bank by Africa Agriculture and Trade Investment Fund payable in 4 years in 9 installments commencing June 2019. Interest is payable quarterly at LIBOR plus a margin. The facility will mature in March 2023. The effective interest rate of the loan is 6.84% per annum.
- (v) The amount of N2.5b (December 2019: N2.8b) represents the outstanding balance on the funding granted by BOI under the Small and Medium Enterprise Refinancing and Restructuring Fund (SMERRF). The SMERRF is administered at an all-in interest rate of 10% per annum payable on a monthly basis, one-off fee 2% and monitoring fee of 0.125% payable on quarterly basis. The tenor of the facilities range between 5 years to 7 years.
- (vi) Central Bank of Nigeria (CBN) in collaboration with the Federal Government of Nigeria (FGN) represented by the Federal Ministry of Agriculture and Water Resources (FMA & WR) established a Commercial Agricultural Credit Scheme, (CACS) to promote commercial agricultural enterprise in Nigeria. The Bank obtained the loan on behalf of the customer at two (2) percent to lend to the customer at 9% inclusive of management and processing fee. Repayment proceeds from CACS projects are repatriated to CBN on quarterly basis, all loans under the agriculture scheme is expected to terminate on 30 September 2025.

CBN in response to COVID-19 outbreak and spillovers, issued a circular on 16 March 2020 with reference No. FPR/DIR/GEN/CIR/07/049 reducing interest rates on all CBN intervention facilities from 9 to 5 percent per annum for 1 year effective March 1, 2020. The reduction in rate has further been extended till 28 February 2022 as contained in circular reference No FPR/DIR/PUB/CIR/01/001 of 03 March 2021.

- (vii) This represents a loan agreement between the Bank and Nigeria Mortgage Refinance Company PLC (NMRC) for NMRC to refinance from time to time Mortgage Loans originated by the Bank with full recourse to the Bank on the terms and conditions stated in the agreement. The facility was obtained during the year 2016 at an interest rate of 15.5% per annum to mature 7 September 2031.
- (viii) This is a facility granted as a result of the decision made during the June 2015 National Economic Council (NEC) meeting for deposit money banks to extend concessionary loans to state governments using the balance in the Excess Crude Account (ECA) as collateral. Osun and Kwara State Government indicated their willingness to work with Sterling Bank Plc on the transaction. The Osun State Government applied for N10billion, while Kwara State Government applied for N5billion. The facilities were approved at the June 2015 National Economic Council meeting. The purpose of the loans are for developmental and infrastructure projects in the states. CBN granted the loan to the states at 9% annually for 20 years.

CBN in response to COVID-19 outbreak and spillovers, issued a circular on 16 March 2020 with reference No. FPR/DIR/GEN/CIR/07/049 reducing interest rates on all CBN intervention facilities from 9 to 5 percent per annum for 1 year effective March 1, 2020. The reduction in rate has further been extended till 28 February 2022 as contained in circular reference No FPR/DIR/PUB/CIR/01/001 of 03 March 2021.

- (ix) The Central Bank of Nigeria, as part of the efforts to unlock the potential of the real sector to engender output growth, value added productivity and job creation has established a N300 billion Real Sector Support Facility (RSSF). The Facility will be used to support large enterprises for start-ups and expansion financing needs of N500 million up to a maximum of N10.0 billion. The loan tenor is 10 years with moratorium and at all in rate of 9% per annum.

CBN response to COVID-19 outbreak and spillovers, issued a circular on 16 March 2020 with reference No. FPR/DIR/GEN/CIR/07/049 and reduced interest rates on this facility from 9 to 5 percent per annum for 1 year effective March 1, 2020.

- (x) Non-Oil Support Export Stimulation Facility (NESF) is designed to redress the declining export credit and reposition the sector to increase its contribution to revenue generation and economic development. Its designed to be accessed by exporters at a single digit of 9% and maximum obligor limit of N5bn. It is aimed at improving export financing and additional opportunities for exporters to upscale and expand their businesses in improving their competitiveness.

CBN in response to COVID-19 outbreak and spillovers, issued a circular on 16 March 2020 with reference No. FPR/DIR/GEN/CIR/07/049 reducing interest rates on all CBN intervention facilities from 9 to 5 percent per annum for 1 year effective March 1, 2020. The reduction in rate has further been extended till 28 February 2022 as contained in circular reference No FPR/DIR/PUB/CIR/01/001 of 03 March 2021.

- (xi) Anchor Borrowers Programme (ABP) is an initiative of the Central Bank of Nigeria and was launched by President Muhammadu Buhari on November, 2015 in Kebbi State. CBN earmarked N40bn out of N220bn Micro, Small and Medium Enterprises Development Fund (MSMEDF) to be given to farmers registered with cooperatives at a single rate of 9% and the amount is dependent on the economics of production of each commodity. It is aimed at creating an ecosystem to link small holder farmers (borrowers) and processors (anchor) in the agricultural value chain to achieve job creation, increase domestic production of agricultural commodities/raw materials, improve farmers income and reduce import duty.

CBN in response to COVID-19 outbreak and spillovers, issued a circular on 16 March 2020 with reference No. FPR/DIR/GEN/CIR/07/049 reducing interest rates on all CBN intervention facilities from 9 to 5 percent per annum for 1 year effective March 1, 2020. The reduction in rate has further been extended till 28 February 2022 as contained in circular reference No FPR/DIR/PUB/CIR/01/001 of 03 March 2021.

**Lease Liability**

Movement in Lease Liability is as shown below:

| <i>In millions of Naira</i> | June 2021 | December 2020 | June 2021 | December 2020 |
|-----------------------------|-----------|---------------|-----------|---------------|
| Opening Balance             | 114       | 65            | 114       | 65            |
| Additions                   | -         | 36            | -         | 36            |
| Payments during the year    | (36)      | -             | (36)      | -             |
| Accretion of Interest       | 7         | 13            | 7         | 13            |
|                             | <u>85</u> | <u>114</u>    | <u>85</u> | <u>114</u>    |

Interest on lease liability is included in interest expense using effective interest rate (note 4).

34

**Provisions**

| <i>In millions of Naira</i>                     | June 2021  | December 2020 | June 2021  | December 2020 |
|---|------------|---------------|------------|---------------|
| Provisions for Litigations and claims           | 161        | 145           | 161        | 145           |
| Provisions for guarantees and letters of credit | 309        | 309           | 309        | 309           |
|   | <u>469</u> | <u>454</u>    | <u>469</u> | <u>454</u>    |

Movement in provisions in other liabilities

| <i>In millions of Naira</i>  | June 2021  | December 2020 | June 2021  | December 2020 |
|------------------------------|------------|---------------|------------|---------------|
| Balance, beginning of period | 454        | 167           | 454        | 167           |
| Additions                    | 15         | 287           | 15         | 287           |
|                              | <u>469</u> | <u>454</u>    | <u>469</u> | <u>454</u>    |

The provision amount represents litigation and claims against the Bank as at 30 June 2021. These claim arose in the normal course of business and are being contested by the Bank. The Directors, having sought advice of professional counsels, are of the opinion that this provision is adequate for liability that have crystallised from these claims. There is no expected reimbursement in respect of this provision.

35

**Capital and reserves**

**(a) Share capital**

| <i>In millions of Naira</i>  | June 2021     | December 2020 | June 2021     | December 2020 |
|--|---------------|---------------|---------------|---------------|
| Authorised:<br>32,000,000,000 Ordinary shares of 50k each                            | <u>16,000</u> | <u>16,000</u> | <u>16,000</u> | <u>16,000</u> |
| Issued and fully-paid:<br>28.79 billion (2020: 28.79 billion) Ordinary shares of 50k | <u>14,395</u> | <u>14,395</u> | <u>14,395</u> | <u>14,395</u> |

**(b) Share premium**

| <i>In millions of Naira</i> | June 2021     | December 2020 | June 2021     | December 2020 |
|-----------------------------|---------------|---------------|---------------|---------------|
| Share premium               | <u>42,759</u> | <u>42,759</u> | <u>42,759</u> | <u>42,759</u> |

**(c) Statutory reserves**

The other regulatory reserves includes movements in the statutory reserves. Nigerian banking regulations require the Bank to make an annual appropriation to a statutory reserve. As stipulated by S.16(1) of the Banks and Other Financial Institution Act of Nigeria, an appropriation of 30% of profit after tax is made if the statutory reserve is less than paid-up share capital and 15% of profit after tax if the statutory reserve is greater than the paid up share capital.

**(i) Fair value reserve**

The fair value reserve includes the net cumulative change in the fair value on investments carried at fair value through other comprehensive income until the investment is derecognised or impaired.

**(ii) Regulatory risk reserve**

The Central Bank of Nigeria stipulates that provisions for loans recognised in the profit or loss account be determined based on the requirements of IFRS. The IFRS provision should be compared with provisions determined under prudential guidelines and the expected impact/changes in retained earnings should be treated as follows:

(i) Prudential impairment allowance is greater than IFRS impairment allowance: transfer the difference from the retained earnings to a non-distributable regulatory risk reserve.

(ii) Prudential impairment allowance is less than IFRS impairment allowance: the excess charges resulting should be transferred from the regulatory risk reserve account to the retained earnings to the extent of the non-distributable reserve previously recognised.

**(iii) Other reserves**

The SMEEIS reserve is maintained to comply with the Central Bank of Nigeria (CBN) requirement that all licensed banks set aside a portion of the profit after tax in a fund to be used to finance equity investment in qualifying small and medium-scale enterprises. Under the terms of the guideline (amended by CBN letter dated 11 July 2006), the contributions will be 10% of profit after tax and shall continue after the first 5 years but banks' contributions shall thereafter reduce to 5% of profit after tax. However, this is no longer mandatory. In prior year, 10% of profit after taxation was transferred to SMEEIS reserves in accordance with Small and Medium Enterprise Equity Investment Scheme as revised in April 2005. The Bank has suspended further appropriation to SMEEIS (now known as Microcredit Fund) reserve account in line with the decision reached at the Banker's Committee meeting and approved by CBN.

The AGSMEIS reserve is maintained to comply with the requirement of Central Bank of Nigeria which requires banks to set aside 5% of their Profit After Tax for investment in Agri-Business/Small and Medium Enterprises. This Investment Scheme aimed at supporting the Federal Government's effort at promoting agricultural businesses as well as Small and Medium Enterprises. The fund is domiciled with the Central Bank of Nigeria.

(d) **Retained earnings**

Retained earnings are the carried forward recognised income net of expenses plus current period profit attributable to shareholders.

**36 Cash and cash equivalents**

For the purpose of cash flow, cash and cash equivalents include cash and foreign monies, unrestricted balances with Central Bank of Nigeria, balances held with local Banks, balances held with bank outside Nigeria and money market placements.

| <i>In millions of Naira</i>                                      | Group          |               | Bank           |               |
|--|----------------|---------------|----------------|---------------|
|  | June 2021      | December 2020 | June 2021      | December 2020 |
| Cash and foreign monies (See note 16)                            | 38,793         | 35,530        | 38,793         | 35,530        |
| Unrestricted balances with Central Bank of Nigeria (See note 16) | 71,449         | 38,993        | 71,449         | 38,993        |
| Balances held with local banks (See note 17)                     | 6              | 5             | -              | -             |
| Balances held with banks outside Nigeria (See note 17)           | 67,449         | 18,868        | 67,449         | 18,868        |
| Money market placements (See note 17)                            | 4,833          | 2,211         | 4,833          | 2,211         |
|  | <u>182,530</u> | <u>95,607</u> | <u>182,524</u> | <u>95,602</u> |

**37 Contingent Liabilities and commitments**

In the normal course of business, the Bank conducts business involving acceptances, performance bonds and indemnities. The majority of these facilities are offset by corresponding obligations of third parties. Contingent liabilities and commitments comprise performance bonds, acceptances, guarantees and letters of credit.

To meet the financial needs of customers, the Bank enters into various commitments and contingent liabilities. These consist of financial guarantees and letters of credits. These obligations are not recognised on the statement of financial position because the risk has not crystallised.

Letters of credit and guarantees commit the Bank to make payment on behalf of customers in the event of a specific act, generally related to the import or export of goods. Guarantees and standby letters of credit carry a similar credit risk to loans.

The following table summarises the nominal principal amount of contingent liabilities and commitments with off-financial position risk:

| <i>In millions of Naira</i>       | June 2021      | December 2020  | June 2021      | December 2020  |
|-----------------------------------|----------------|----------------|----------------|----------------|
| Bonds, guarantees and indemnities | 103,805        | 124,165        | 103,805        | 124,165        |
| Letters of credit                 | 40,765         | 36,129         | 40,765         | 36,129         |
| Performance bonds                 | 12,777         | 14,993         | 12,777         | 14,993         |
|                                   | <u>157,347</u> | <u>175,287</u> | <u>157,347</u> | <u>175,287</u> |

**38 Events during and after the reporting period**

There is no event that occurred during and after 30 June 2021 that would necessitate a disclosure in the Financial Statements.

**39 COVID-19 Impact Assessment**

The ongoing distribution of the COVID-19 vaccines has contributed to the reduction in the reported cases in Nigeria in the second quarter of 2021. This has boosted investors' confidence and led to improved business optimism. Similarly, global and local economic trade continues to expand and has led to more positive forecast on global outputs. Given the evolving nature of Covid-19, there have been growing concerns of a possible outbreak of the third wave of the COVID-19 disease. However, the Bank will continue to take preemptive measures to minimize the impact of the pandemic on its employees and customers, and ensure continued banking operations by staying prepared and equipped against current and future risks.

In the latest World Bank report in June 2021, the World Bank forecasted a stronger economic recovery in 2021 as most countries make greater strides in vaccinating populations against the coronavirus. The global growth is expected to accelerate to 5.6% in 2021, while the economic growth for Nigeria was revised upward to 1.8% from its earlier projection of 1.1%. The GDP growth projection for Nigeria was on the expectation that crude oil prices would remain high, as well as the government maintaining the right structural reforms and exchange rate management.

Since the World Health Organization (WHO) declared the COVID-19 pandemic in March 2020, the Bank has leveraged its agile structure and optimized its pre-pandemic operating models to respond to the pandemic. The major measure implemented by the Bank in ensuring operational resilience and sustained service delivery to our stakeholders was the activation of its comprehensive Business Continuity Plan (BCP), which includes an internal awareness campaign, health and wellness campaign, enhanced IT infrastructure to support remote work, electronic business operations, electronic banking services, and improved network security.

To preserve its asset quality, the Bank maintains continuous risk management and operational process improvements, including frequent stress testing and contingency planning to assess the impact of the COVID-19 pandemic on its capital adequacy, asset quality and liquidity indicators. Recent results signify that all related metrics remain compliant with regulatory thresholds. Furthermore, the Bank remains compliant with regulatory guidelines on disclosures and valuations of Financial Instruments, including the impact of the pandemic on its recalibrated IFRS 9 models.

Also, the Bank reviewed its portfolio of investment securities, consisting mainly of FGN debt instruments. We remain confident that the Federal Government of Nigeria will continue to meet its obligations. The component of corporate debt instruments in the Bank's portfolio of investment securities is relatively small, and we continue to assess and value them as appropriate.

Lastly, the Bank's Management remains confident of the Bank's resilience, and is not aware of any material uncertainties that may cast significant doubt upon the entity's ability to continue operating as a going concern.

The International Accounting Standard Board, Financial Reporting Council of Nigeria (FRC), Central Bank of Nigeria (CBN), Securities and Exchange Commission (SEC) have all issued pronouncements to guide entities on disclosures and valuations of Financial Assets with respect to the impact of the Pandemic.

**Financial Assets**

In line with these guidelines, Sterling Bank has recalibrated its IFRS9 ECL model. The recalibration of the model reflects new Forward-looking Information (FLIs) due to the negative macroeconomic trend. It also reflects our modified outlook which resulted in updated scenario probability weights with regards to observed Probability of Default (PD) values. The adjusted scenario outlook involved a certain level of expert judgement which reflect the perceived elevated risks due to market volatilities and persistent uncertainties.

**Non-Financial Assets**

Investment Property: The Bank relied on expert judgement in its assessment. Consequently, the market value of this portfolio did not experience significant deterioration to induce impairment.

Property, Plant and Equipment, Right-of-use Assets, Intangible Assets were subjected to individual impairment testing and the outcome was insignificant.

Unquoted Equities Valuation: EPS/PBS of market comparable companies were used. Allowance for both country risk and non-quotation risk at 10% respectively was considered in determining the expected value. The assessment outcome did not show asset diminution.

The Bank is confident that it will continue to operate and mitigate the risk associated with COVID-19 in the next 12 months from the date of this report.
